Customer Name : **Upwork Inc**
441 Logue Avenue
Project Name: **BLE Scanner**
Following are the details of working from 01/May/2020 to 30/Jun/2020.

Day: 1   **Date:** 07/May/2020
Work Description:
stop task for other task to complete , work On BLE testing device and trying to fetch data from it.
Day: 2   **Date:** 08/May/2020
Work Description:
work on Create Connection with devices and get notify from connected device.
Day: 3   **Date:** 09/May/2020
Work Description:
Work on fetching BLE Data from simulator app. , Fetch data from BLE and working on showing it. Solving multiple entry issue while BLE Device Notify.
Day: 4   **Date:** 11/May/2020
Work Description:
Try to fetch BLE data and solving crash issue. , Workrd on showing BLE App simulator Data and working on Universal BLE Device Data Handling.
Day: 5   **Date:** 12/May/2020
Work Description:
Worked on Data fetching from BLE device. , Worked on fetching data from Universal BLE device.
Day: 6   **Date:** 13/May/2020
Work Description:
Download demo and finding for universal BLE device fetch data solution. , work on fetching BLE data from universal devices.
Day: 7   **Date:** 14/May/2020
Work Description:
R&D for Ble device data fetching. , Work on Ble device fetch data and changing flow as per discussed.
Day: 8   **Date:** 15/May/2020
Work Description:
worked on Ble data fetching and create new flow. , work on Fetching Data from BLE device and change app flow.
Day: 9   **Date:** 16/May/2020
Work Description:
worked on BLE Data fetching and Changing flow. , worked on BLE device fetch data and flow change.
Day: 10   **Date:** 18/May/2020
Work Description:
worked on BLE device data fetching and Flow change , worked on BLE device fetching data and Changing flow.
Day: 11   **Date:** 19/May/2020
Work Description:
work on BLE data fetching and Flow change , worked on BLE device data Fetch And Flow change.
Day: 12   **Date:** 21/May/2020
Work Description:
check other possiblities of data fetch from BLE device.
